EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with George Moxon, II on April 14, 2004.

The application has been amended as follows:

Claim 1, line 3, after "comprising a" insert – laminate --,

Claim 1, line 12, after " $0.10 \lambda_m$ " insert – wherein λ_m is the wavelength of an acoustic wave in the material- -,

Claim 14, line 2, after " λ_w ", insert – ,wherein λ_w is the wavelength of an acoustic wave in the window --,

Claim 15, line 2, after " λ_w ", insert – ,wherein λ_w is the wavelength of an acoustic wave in the window --

Claim 30, line 1, change "septum" to – septa --,

2. The following is an examiner's statement of reasons for allowance:

Claim 1 is the sole independent claim. The subject matter of claim 1 relates to an acoustic window comprised of a core material sandwiched between two septa.

Claim 1 is allowable over the prior art acoustic windows by claiming specific, novel and unobvious material characteristics for the core and septa that allow for uniform transmission loss at an angle of between -40 degrees to $+40$ degrees. A specific septa thickness of less than $0.10 \lambda_m$, and a core shear loss factor of greater than 0.02 are critical factors in achieving angular uniformity.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
